I just called you. (Apparently our voice mail system isn't working). We have funds until end of May, and our modelers just had a call with the GE modelers this past Monday on Food Chain -GE was not on the call so I didn't take it, but I'll get a back-brief from them and will call you back.

just left a voicemail on your office phone (i had stopped by earlier and it looked like you were in).

no word from GE yet.

it should be pencils down for the modeling team at this point until we do hear something formal from GE.

Please give me a call if you are at home.

Thanks

Hi Doug,

I was wondering whether you've heard from GE. We have a Food Chain call with them on Monday, we plan to raise -again- our concerns wrt the bullhead feeding preferences and propose some alternative calibration options.
